

JnP Product Catalog Starter

PC Case and Power Supply OEM Supply Chain Partner

JnP is a 23-year PC hardware supply-chain partner for global distributors, importers, system integrators, and OEM brands. This starter catalog is designed for first buyer conversations and RFQ follow-up.

Core Categories

PC Power Supply

- ATX power supply sourcing for channel and OEM projects.
- Wattage planning, cable and plug coordination, and packaging support.
- RFQ notes: wattage, certification, plug type, cable design, target market, and volume.

PC Case

- Office, airflow, gaming, and channel-ready PC case sourcing.
- Structure, accessory, carton, and retail packaging coordination.
- RFQ notes: motherboard support, GPU length, fan positions, material, packaging, and order forecast.

Fans and Cooling

- Cooling fan, air cooler, and liquid cooler project coordination.
- Useful for buyers who need cross-category bundle support.
- RFQ notes: size, connector, RPM/noise target, packaging, and accessory requirements.

Why Work With JnP

- 23 years of global PC hardware trading experience.
- Practical support for distributors, importers, and OEM buyers.
- Stable product matching and repeat-order records.
- Export workflow and packaging coordination.
- RFQ response target within 24 business hours.

Buyer Information Needed for Quotation

Clear RFQ details help JnP match products, confirm requirements, and quote accurately.

- Product category and reference model.
- Target market or sales region.
- Estimated quantity for sample, trial order, and repeat order.
- Certification requirements.
- Packaging requirements.
- Target price or price band.
- Expected sample date and bulk delivery date.
- Shipping method or destination port.

OEM Support Scope

- Product and specification matching.
- Neutral, JnP, or buyer-brand packaging coordination.
- Carton marks, barcode labels, accessory list, and documentation support.
- Sample feedback tracking and repeat-order notes.
